Microsoft 365 in Outlook

- Microsoft 365 (Windows OS)
- Microsoft 365 (Android)
- Microsoft 365 (iOS)
- Microsoft 365 (macOS)

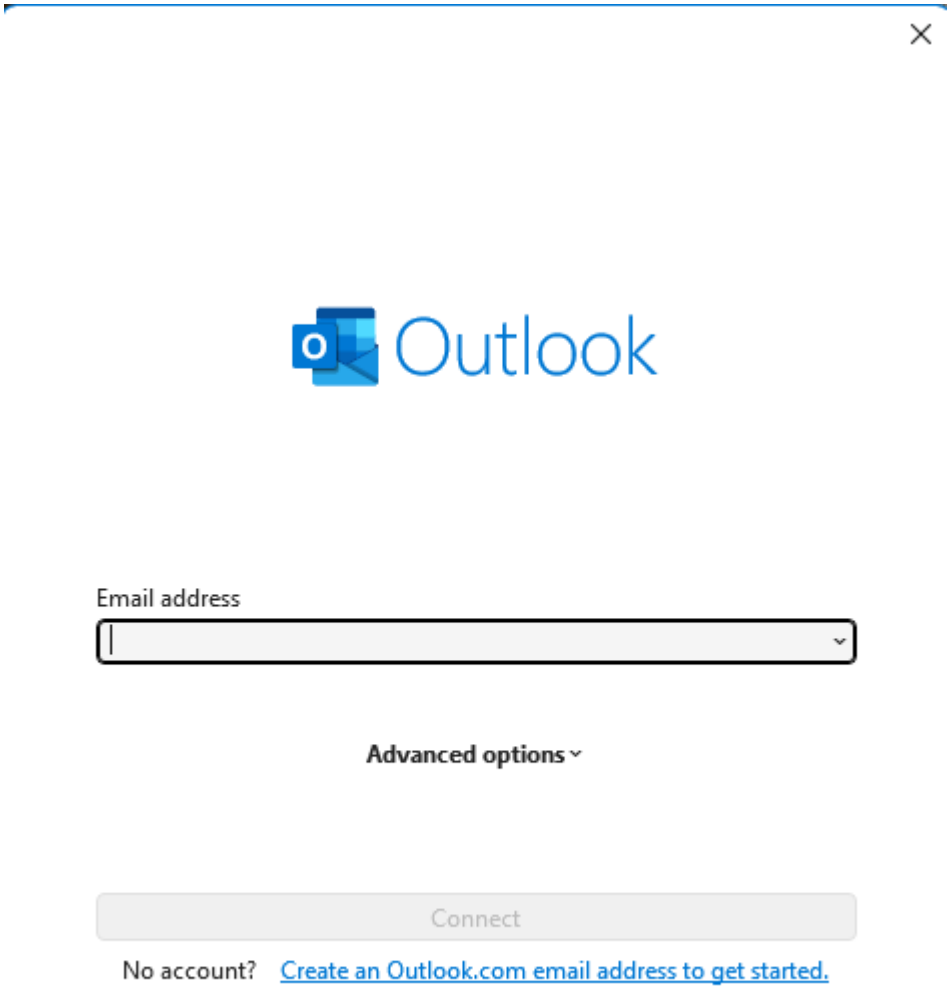

Microsoft 365 (Windows OS)

Open Outlook:

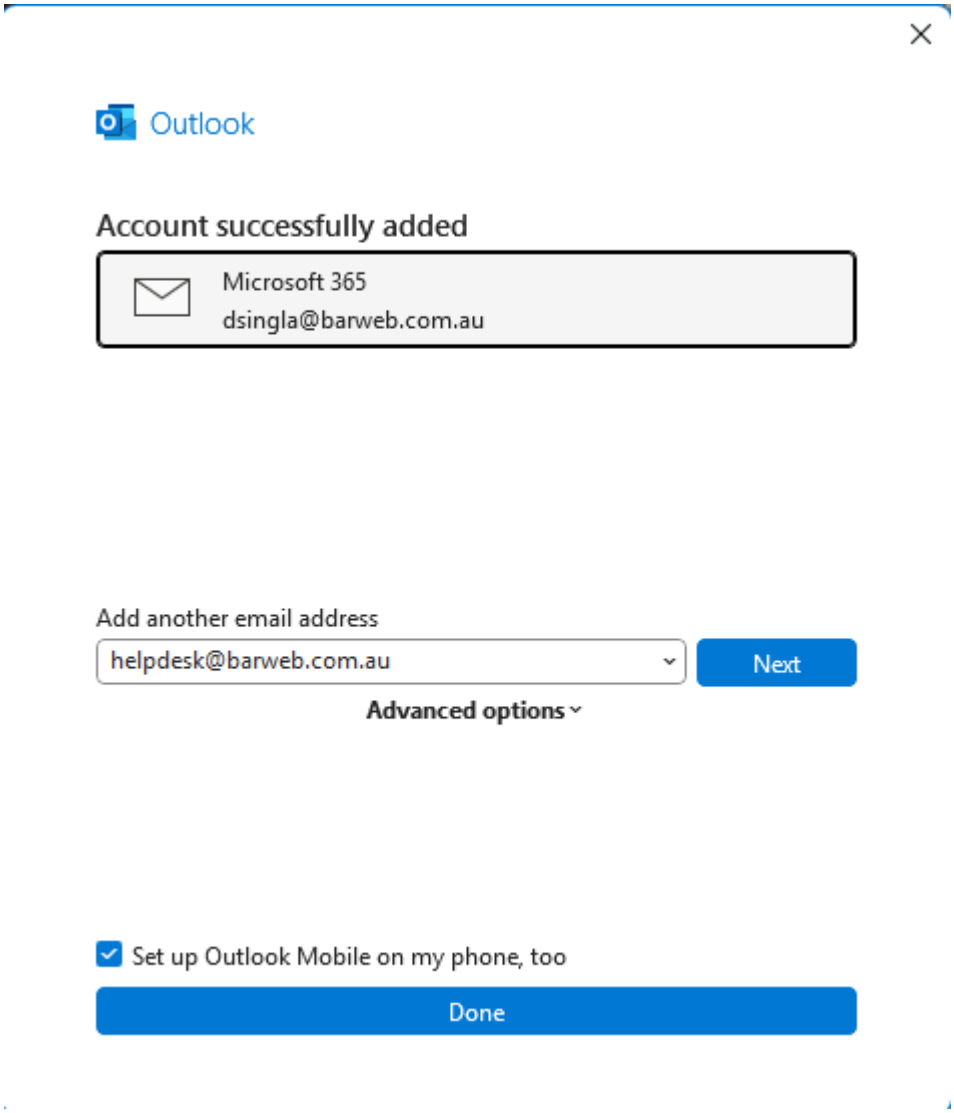

- Launch the **Outlook application** on your computer.

Add Account:

- In the new window, select **Email Account** and click Connect.

Enter Account Information:

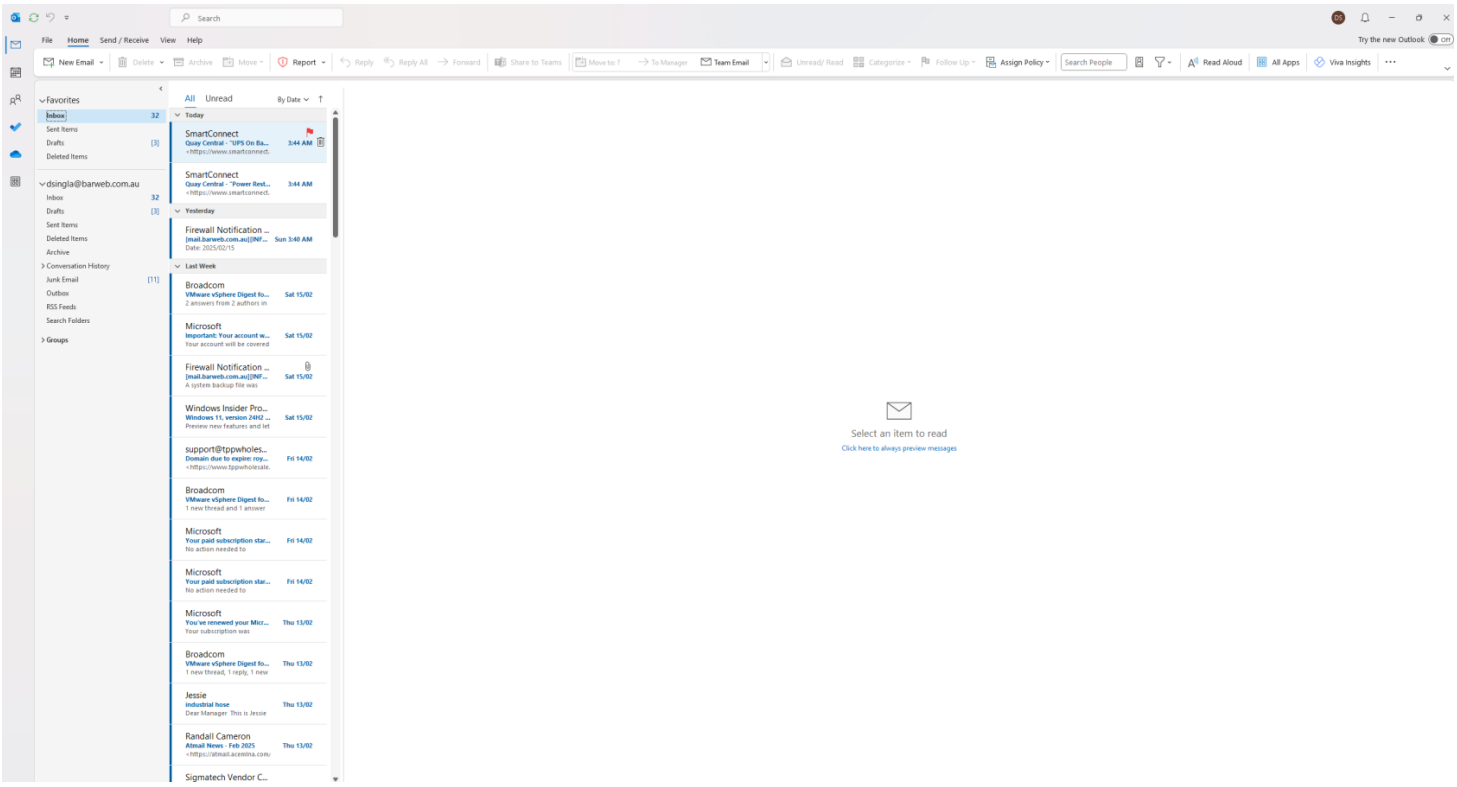

- Enter your **Name**, **Email Address** (your Microsoft 365 email address), and **Password**.
- Click **Next**. Outlook will automatically try to configure the account.

Authenticate

- If prompted, enter your **Microsoft 365 password** and click **OK**.
- In some cases, you might be redirected to a Microsoft login page. Enter your **email address** and **password** there.

Finish Setup:

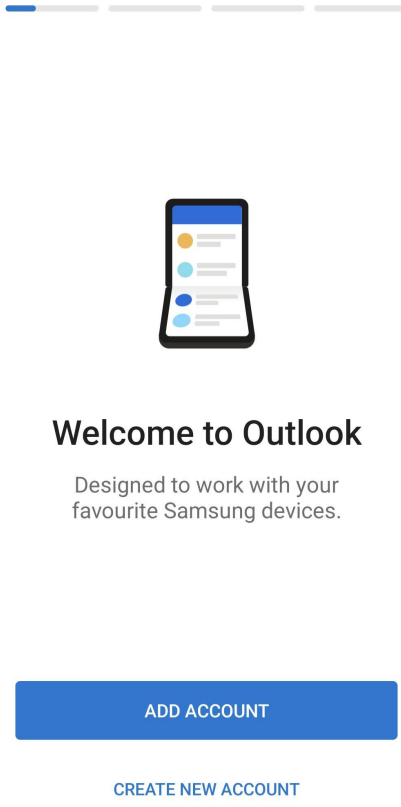

- Once Outlook has successfully configured your account, click **Finish**.

Restart Outlook (if necessary):

- If you don't see your emails immediately, restart Outlook. It should now sync with your Microsoft 365 account.

Microsoft 365 (Android)

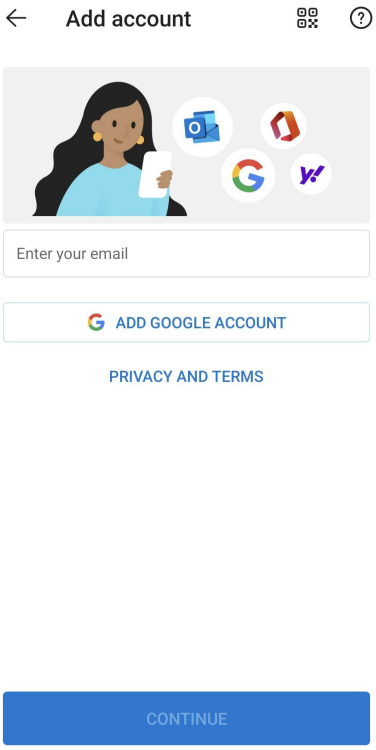

Install Outlook App:

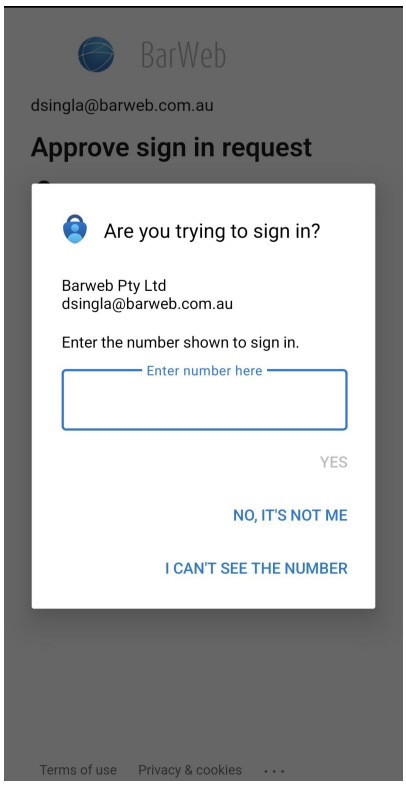

Sign In:

Tap on **Add Account > Sign in with Microsoft 365 Account**

- Enter your **email address** and tap **Next**.
- If prompted, enter your **password**

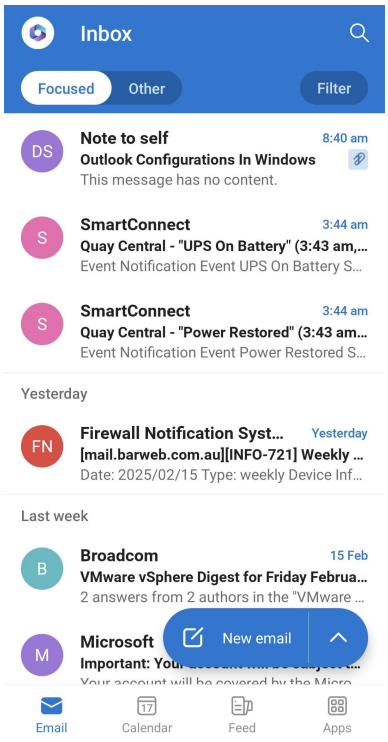

- **Follow any additional verification steps (such as two-factor authentication if enabled).**

Complete Setup:

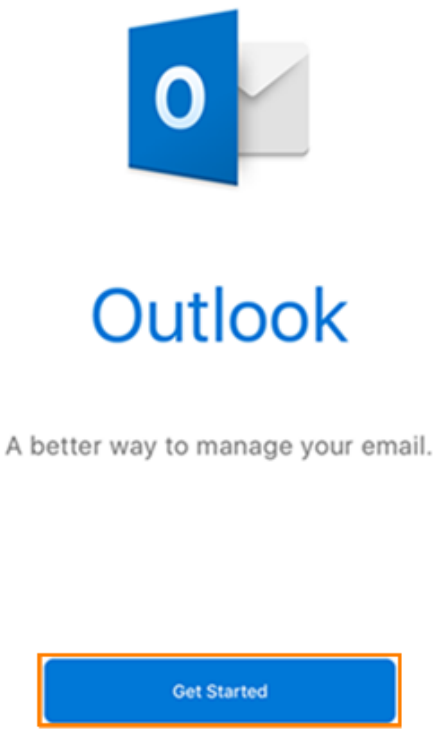

- **Once signed in, Outlook will automatically sync your emails, contacts, and calendar from the added account.**

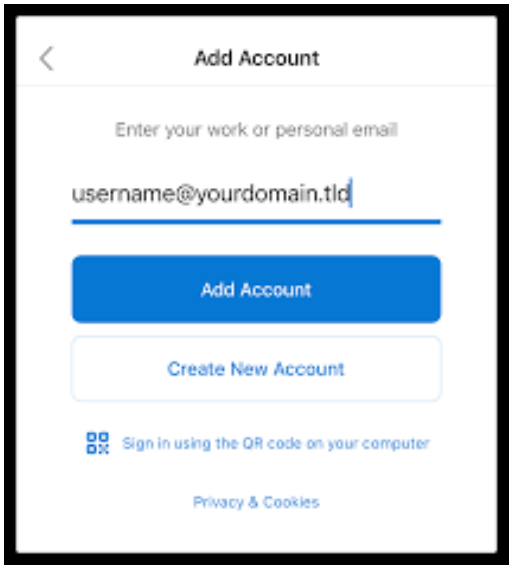

Microsoft 365 (iOS)

Open the Outlook App:

Sign In to Microsoft 365 > Get Started > Enter your **Microsoft 365 email address**

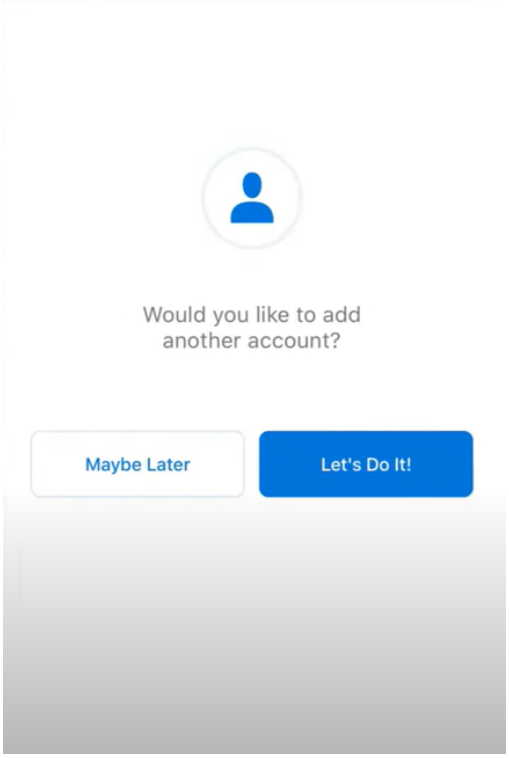

- Tap **Add Account**.
- Enter your **password** and tap **Sign In**.

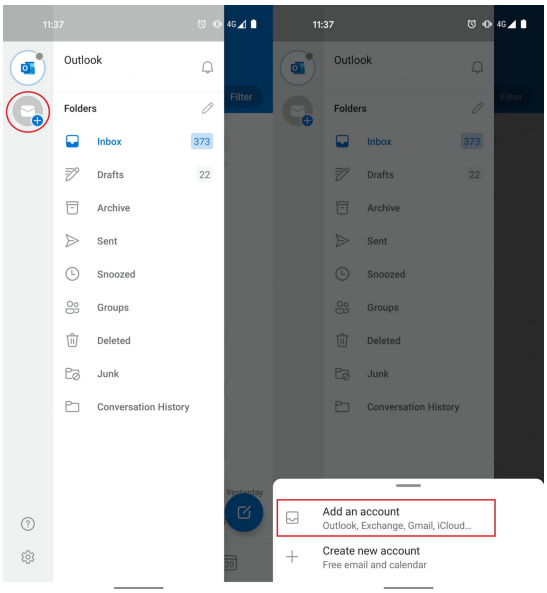

Allow Permissions:

- You may be prompted to allow Outlook to access your contacts, calendar, and notifications. Tap **Allow** to grant these permissions.
- If you have **Multi-Factor Authentication (MFA)** enabled, you will be prompted to verify your identity through your preferred MFA method (e.g., Microsoft Authenticator app, SMS, or phone call).

Access Your Microsoft 365 Data:

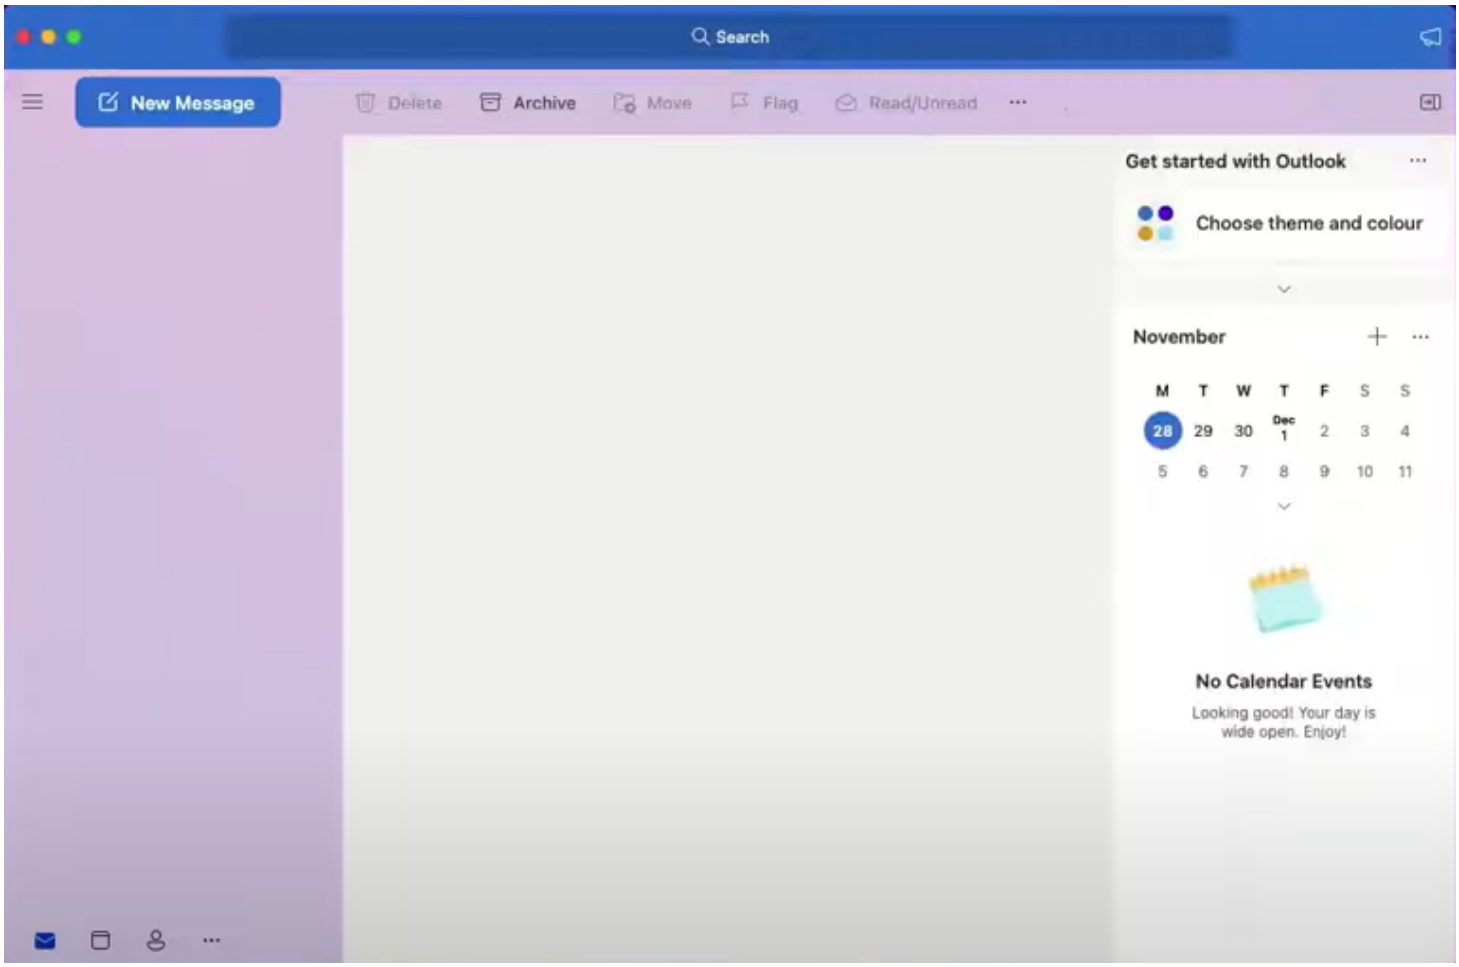

- Once setup is complete, you'll see your **Microsoft 365 email** inbox and other folders in the Outlook app.
- You can access your **calendar**, **contacts**, and other features integrated into Microsoft 365 directly from the app.

Microsoft 365 (macOS)

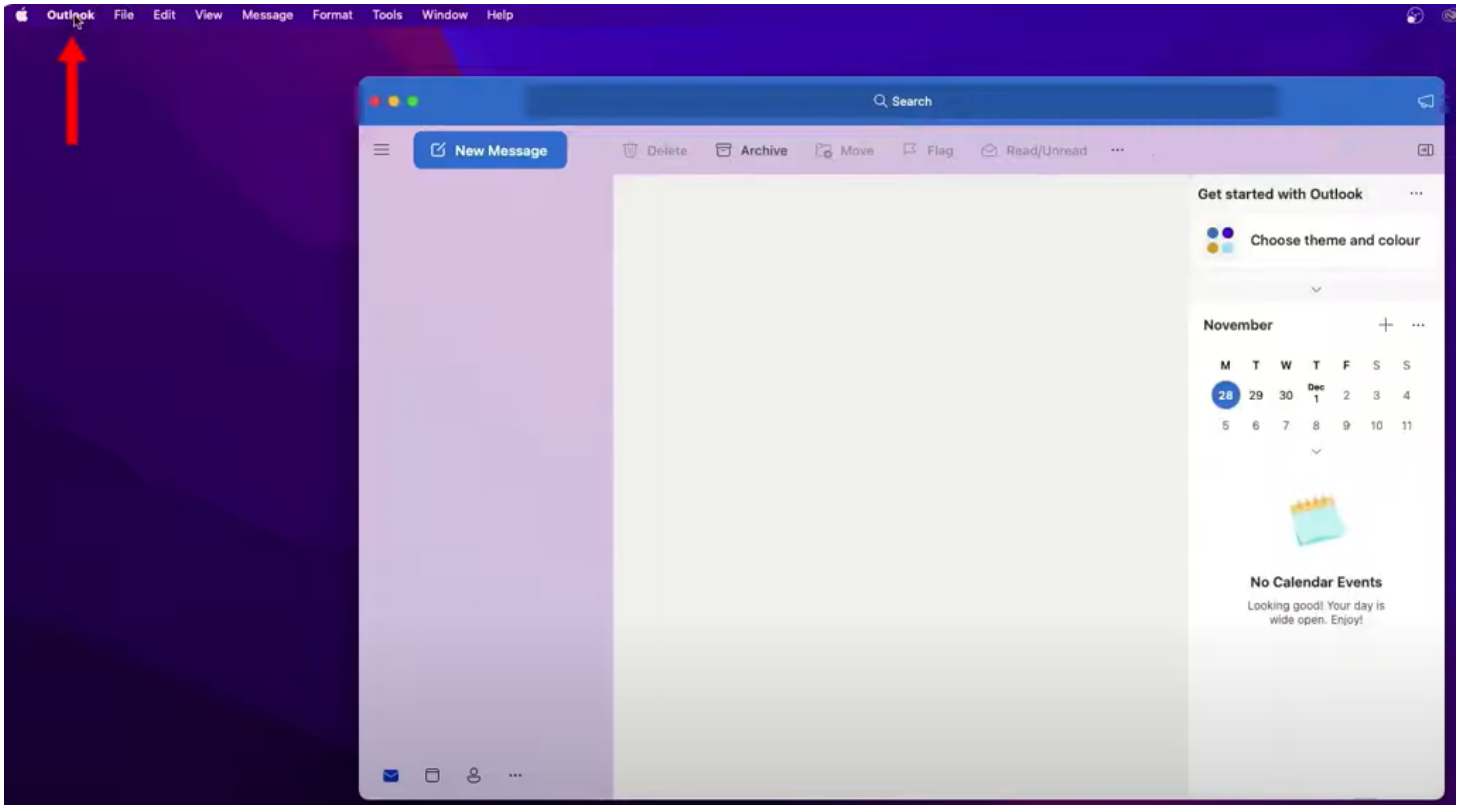

Open Outlook:

- Once the app is installed, open **Outlook** from your Applications folder or Launchpad.

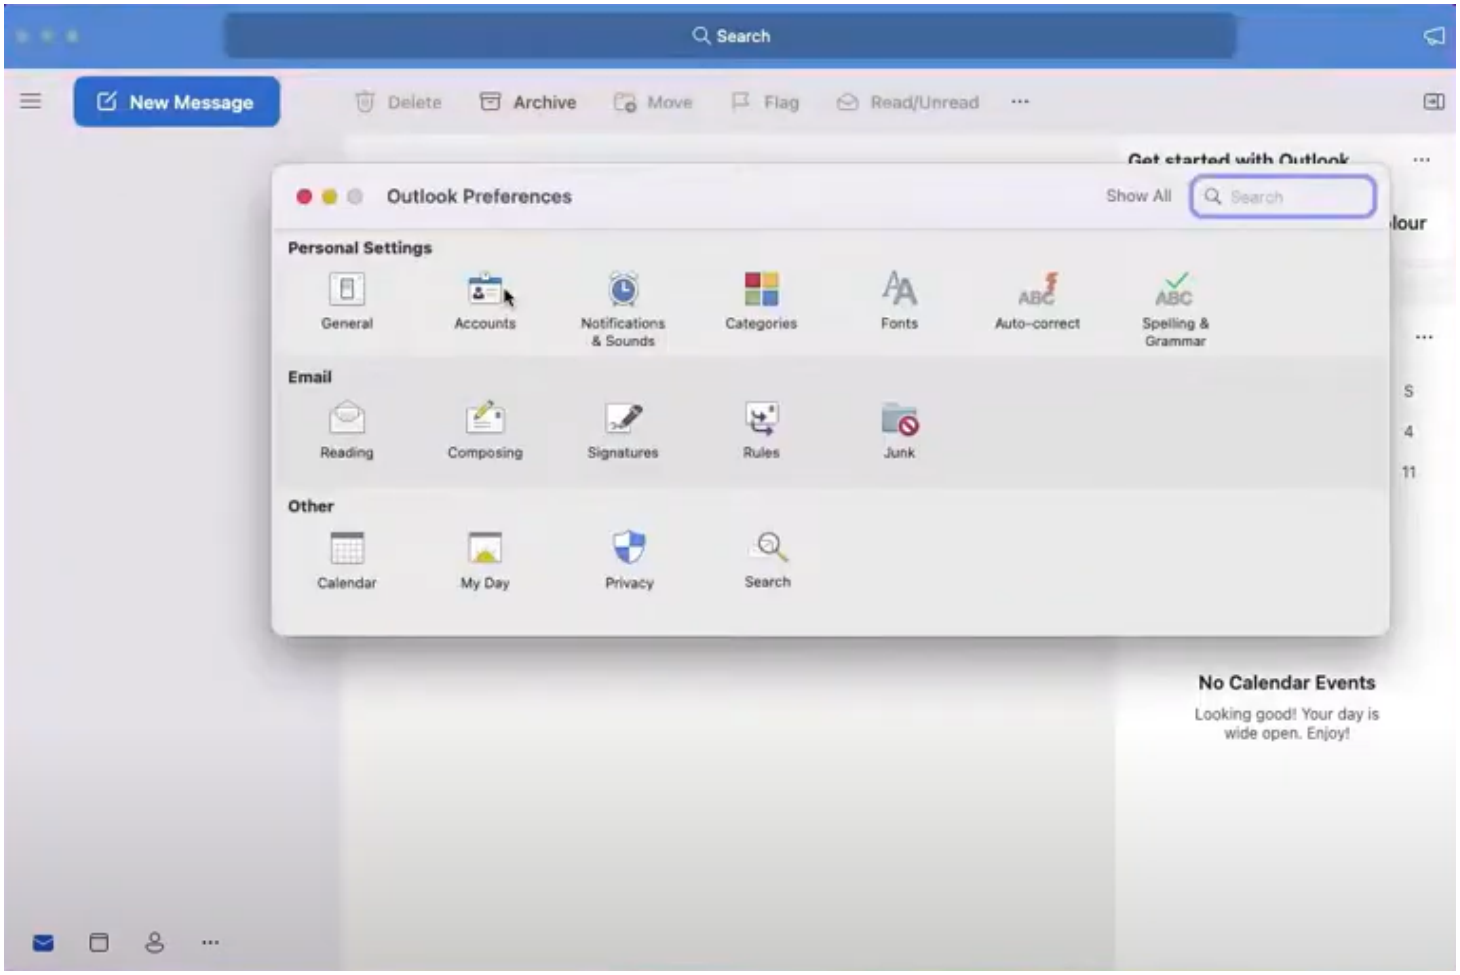

Open System Preferences:

- Click the **Apple icon** in the top-left corner of your screen.
- Select **System Preferences** from the dropdown menu.

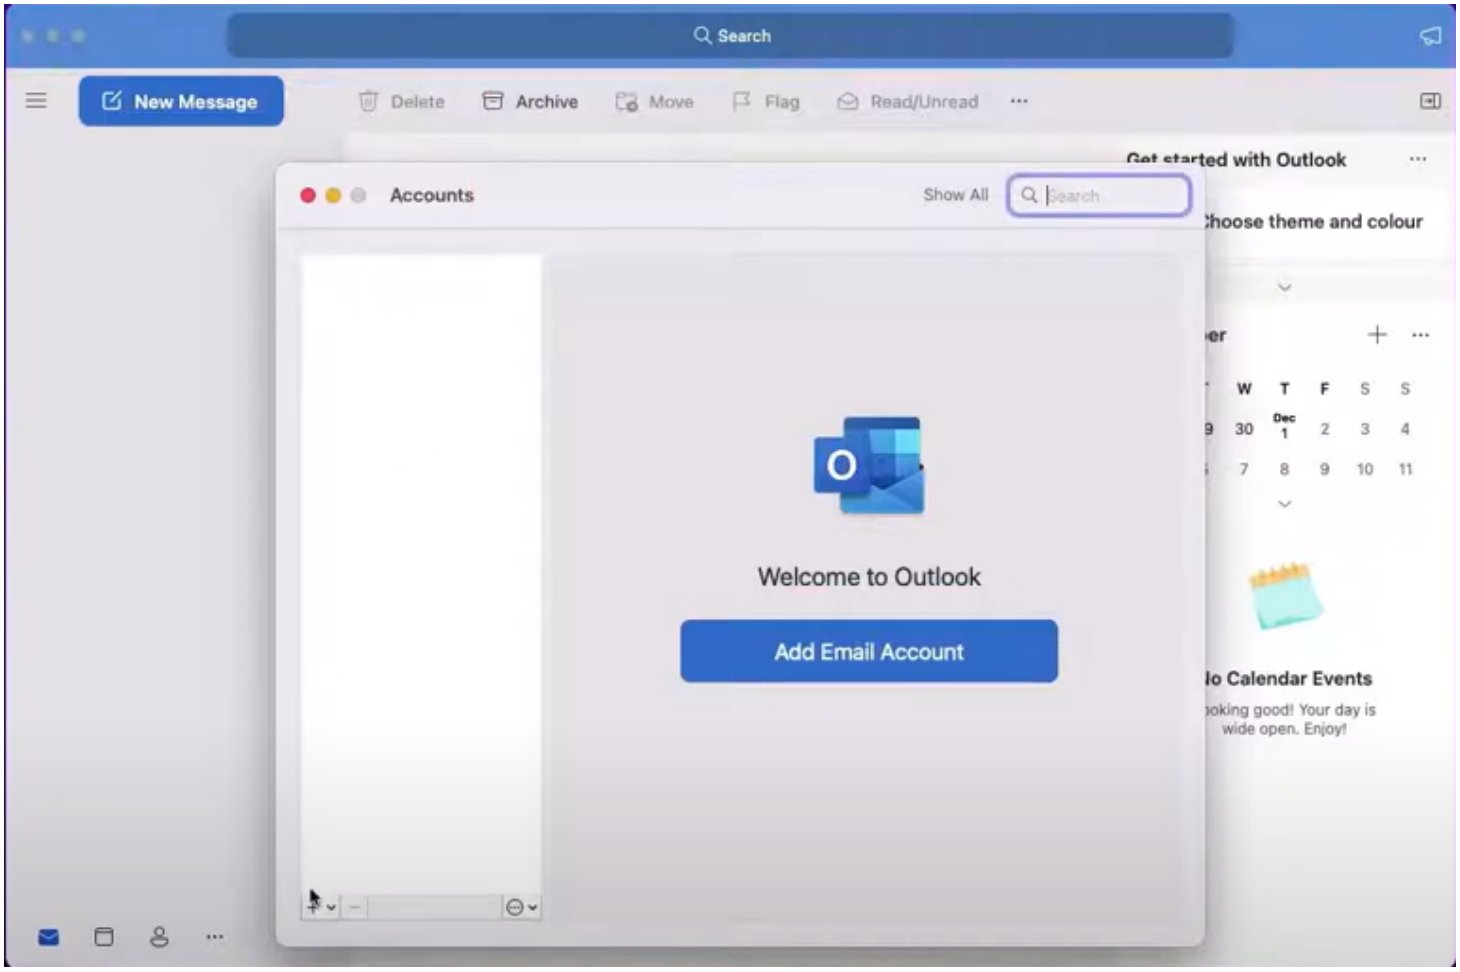

Go to Internet Accounts:

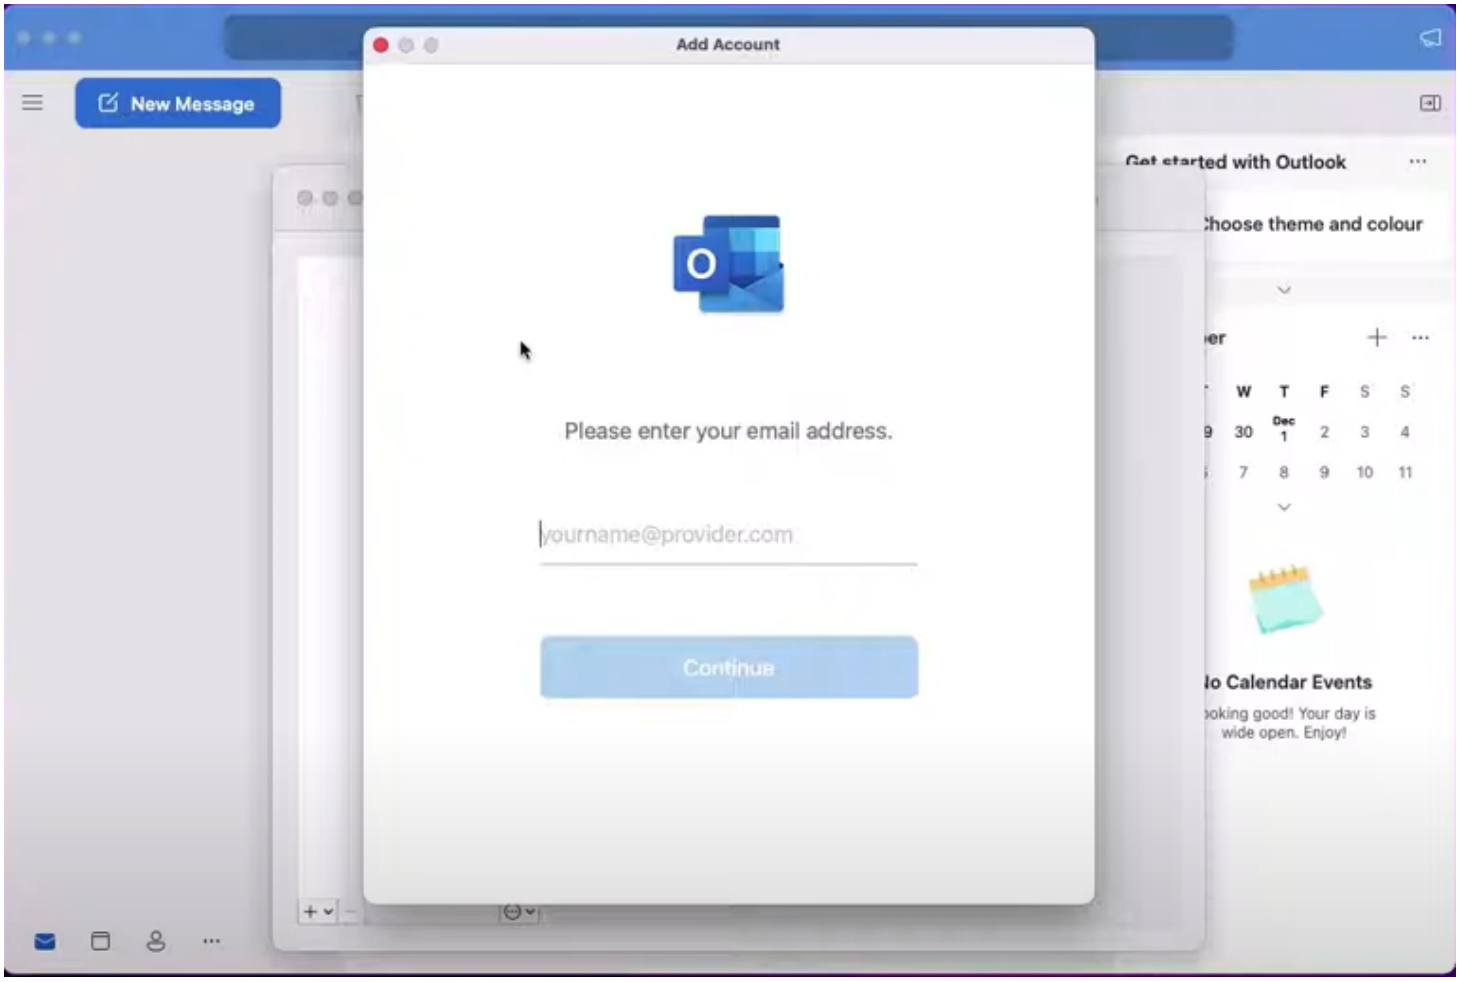

- In the **System Preferences** window, click on **Internet Accounts**. This is where you manage email accounts and services like Google, Yahoo, Microsoft Exchange, and others.

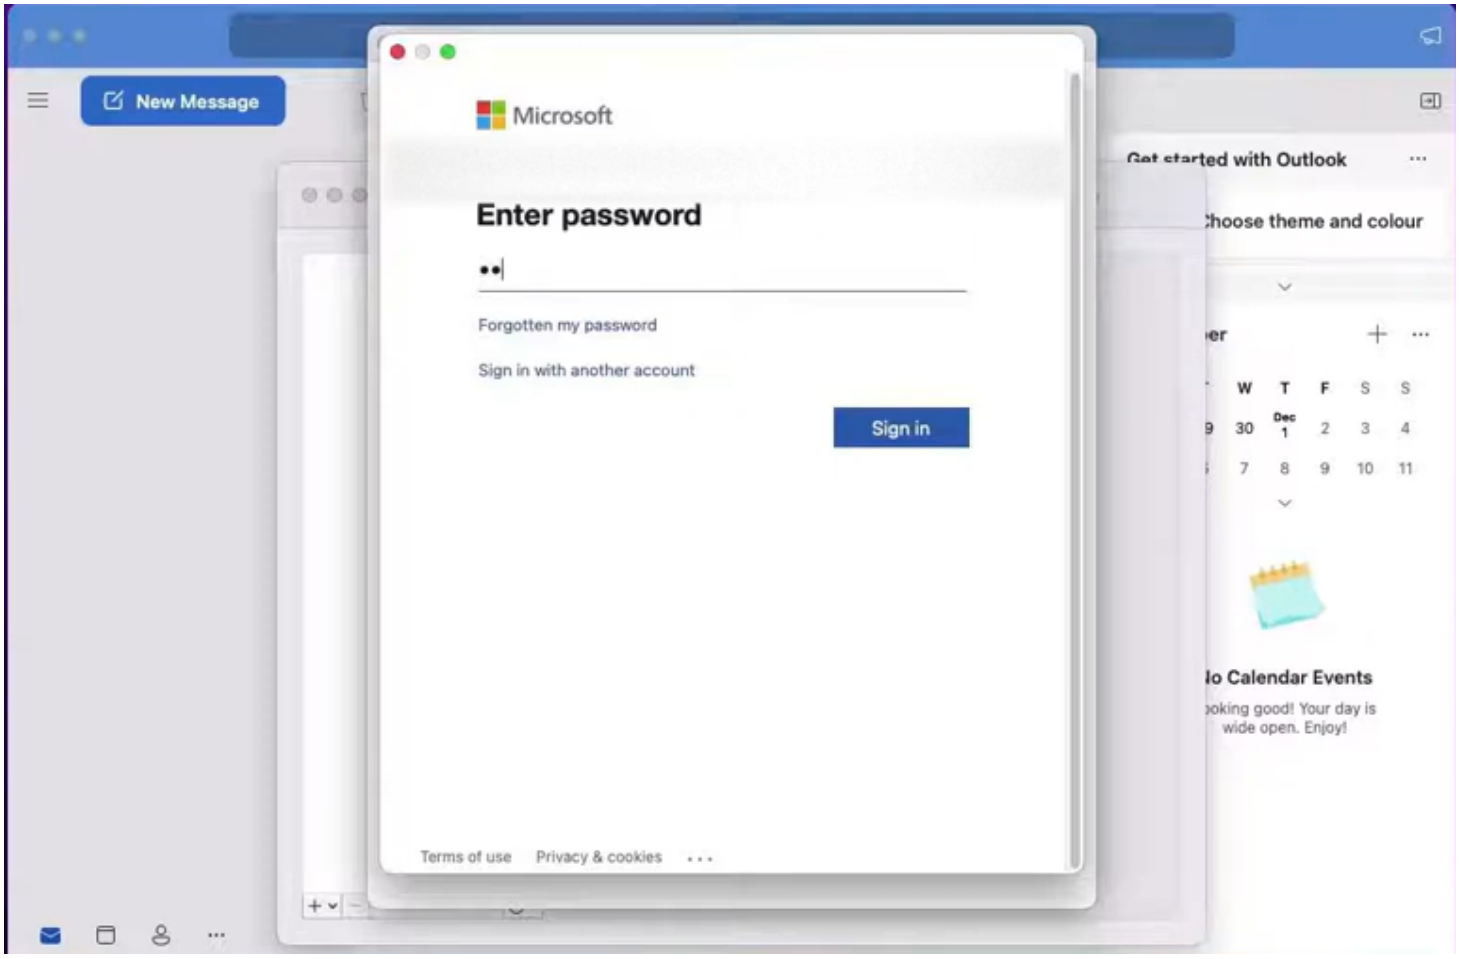

Add a New Account > Select Outlook or Exchange:

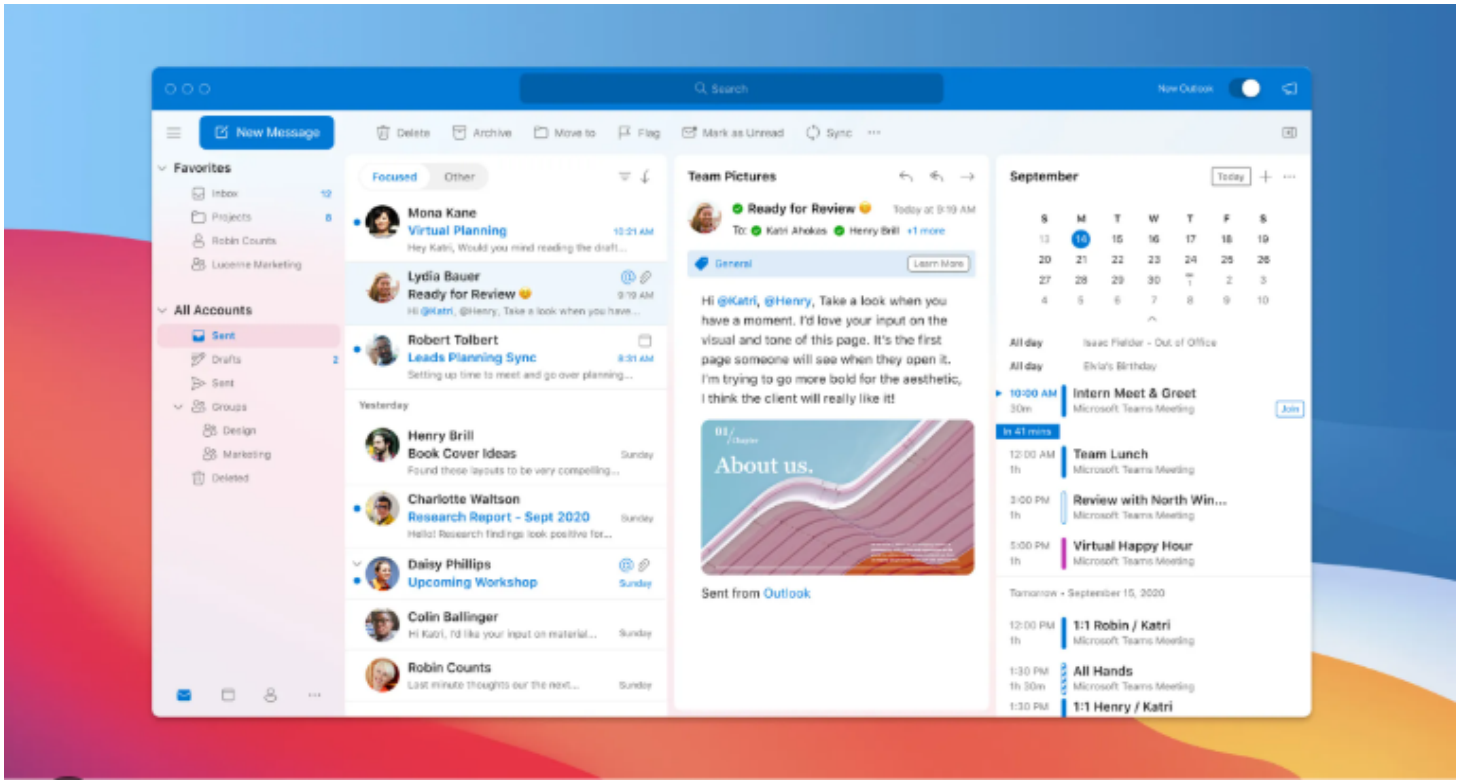

Enter Your Outlook Email > Enter your Microsoft 365 email address > Enter Password

No Calendar Events
Looking good! Your day is wide open. Enjoy!

Complete Setup:

- After selecting the apps to sync, click **Done**.
- Your Outlook (Microsoft 365) account is now added to macOS and will sync with the Mail, Contacts, and Calendar apps.

Hi @Katri, @Henry, Take a look when you have a moment. I'd love your input on the visual and tone of this page. It's the first page someone will see when they open it. I'm trying to go more bold for the aesthetic, I think the client will really like it!
