

Change Sync Settings - Windows Mail

Change Sync Speed

1. Open Windows Mail

3.

Click **Change mailbox sync settings**

The screenshot shows a dark-themed 'Account settings' dialog box. At the top, it says 'Work Email account settings' next to an email icon and the address 'a.barrister@qldbar.asn.au'. Below this are fields for 'User name' (containing the same email address), 'Password' (masked with dots), and 'Account name' (containing 'Work Email'). At the bottom, there are two links: 'Change mailbox sync settings' with the subtitle 'Options for syncing your content.' and 'Delete account' with the subtitle 'Remove this account from your device.' Below the links are 'Save' and 'Cancel' buttons.
